

CEExchange adheres to a Quality, Environmental, and Health & Safety Management System that conforms to the current requirements of ISO 9001, ISO 27001, ISO 14001, ISO 18001 and R2. This is achieved by having documented procedures, being maintained and continually improved by a system of Internal Audits, Management Reviews and Independent Audits by recognized bodies and Audits by our customers.

CEExchange`s Policy & Objectives are set and reviewed as a result of a Management Review. CEExchange is committed to provide quality of product & service, continued protection against injury or ill-health to our work force, confidentiality, integrity and availability of information, environmental protection and pollution prevention through the integrity of our product reuse and recovery services, information security controls and continued adherence to all environmental, Health & Safety laws and regulations.

CEExchange ensures that all personnel have the necessary training, understanding and awareness of the Management Systems. Therefore it is a mandatory condition of their employment for all members of staff at CEExchange to comply with the appropriate defined processes and procedures.

While the ultimate responsibility rests with the CEExchange Top Management, Quality, Information Security, Environmental, Health & Safety is the responsibility of all staff within our Organization.
